North Lake Management District

Newsletter

### **Lake Study**

The North Lake Management District (NLMD) is sponsoring a "Water Quality and Wave Propagation Study" during the summer seasons of 2020 and 2021. The NLMD has joined with Carroll University, the Southeastern Wisconsin Regional Planning Commission (SEWRPC) and a commercial drone company (Terra Vigilis Inc) to conduct this research. During the summer a team of researchers from these agencies will be on North Lake gathering samples of lakebed soils, plant life and video images to be analyzed. When the study is completed the results will be communicated to North Lake residents, the Wisconsin DNR and various other agencies.

NLMD is very privileged to have the Carroll University participate in this project. They received a scholarship for this project and, as a result, two students and two professors will be assisting in the project. The students will be on North Lake two days a week collecting and analyzing water samples. Thanks, Carroll University.

### **Special Meeting Deferred**

The special meeting scheduled for June 16, 2020, is being deferred due to the Covid 19 virus. Due to legal requirements for formally noticing a special meeting, there's not enough time to know if it's safe enough to hold this special meeting which we anticipate will have high attendance. As soon as the medical and government institutions reach a conclusion as to the safety of a large meeting of this nature, the new date will be announced.
