Dredging Channel Between Big and Little Lakes

On August 24, 2020 (weather permitting), the channel will be dredged between the Big and Little Lake. It is estimated the project will take three (3) days subject to weather and equipment failure. They will remove approximately fifty (50) cubic yards of material and place it on the island between the lakes. The channel will be closed during the work hours except for emergencies. After this project is completed, it will be easier and safer to go between the two Lakes.

Debris on South Sand Bar

The attached picture shows the beer cans and bottle recently removed from the South Sand Bar in Eschweiler Bay. Please keep your debris in your boats and dispose of it when you get home. This debris is bad for the Lake and causes problems for small fish.

NLMD Annual Meeting Reminder

The NLMD Annual Meeting will be Monday, August 31, 2020, at North Lake School (N75W31283 Cnty Road VV) at 6:00 p.m. We hope to see you there.
