Stewardship Committee Report

Attached is the Stewardship Committee Report on the results of the 2020 phase 2 Survey/Questionnaire on the Safe Boater Guidelines

As was the case in 2019, the response rate to the Survey/questionnaire was good which helps us plan for the future.

DNR Presentation on Carry-In Public Access on North Lake

Attached is an e-mail from Ben Heussner of the DNR concerning a Zoom meeting on the carry-in public access site on North Lake. The presentation and questions/answers will be on Monday, December 14, from 6:00 – 8:00p.m.

For those of you unable or not inclined to participate in the presentation, we will summarize (not questions and answers) in a future newsletter. We have visited the site, and it is very well done. We just hope it stays that way.

NLMD Special Meeting

In October, 2020, we sent a newsletter that, subject to the virus, there would be a special meeting in December for its members to vote on the following:

1. Support for DNR plans for Public Access at Reddelien Road on N.L., as described above.
2. Confirmation of purchase of Highway 83 site from North Lake Development Group due to recent developments and changed conditions,
3. Amend the NLMD Fiscal 2021 Budget to increase the amount for the Lake Study, and modify the budget for the purchase of Highway 83 site as decided by eligible electors at the special meeting.

Due to the status of the virus, it is not safe to hold a meeting like this. We will defer the special meeting until conditions warrant holding this meeting.
