Dredging Update & Final Fundraising Push

We are so close!

The DNR Permit amendment for ICE House Bay has been verbally approved.

We have reached an agreement with North Lake Sand & Gravel to use the gravel pit as our dewatering site which will save us significant money on our dredging project.

We are still \$175,000 short of the amount required to complete the entire dredging project.

There are 125 lake residents that have not made a commitment to the project yet. I assume that some of these people are not yet aware of the project. Please help us get the word out, please share this with your neighbors that may not receive the NLMD emails. **Thank you** to the 120 families that have made a commitment to the project.

We will be publishing a list of those that have contributed to the project in a future newsletter.

For those that have made a commitment, please mail a check for your contribution amount to:

North Lake Management District
Don Reinbold, Treasurer
N73W32385 River Road
Hartland, WI 53029-8512

For those using a Donor Advised Fund, NLMD's Tax ID 30-0799991 and Don's Phone # is 262-510-6113

Lake management districts created under chapter 33 are governmental entities, exempt from income tax and gifts to NLMD are deductible for federal tax purposes if the gifts are made for a public purpose. The dredging project should qualify as a public purpose. Please consult your tax advisor.

For those that have not made a commitment, please consider supporting the dredging effort.

For \$8.88, you can remove an additional yard of sediment from North Lake. We have money committed to remove 105,300 cubic yards, there are 19,700 more yards to remove. OUR LAKE needs your help! Please mail a check to the address above to help clean up our lake!

You can view a video on the project details at <https://nlmd.org/dredging-of-ice-house-bay/>

If you have any questions on the dredging project, please contact Mark Theisen via email marktheisen@gmail.com or phone 414-750-5657.

THANK YOU FOR YOUR SUPPORT!!!!
