We did it! Mission accomplished.

The dredging has been completed. All identified sediment in the North bays has been removed. Thank you to everyone that has supported the project and for your patience navigating around the dredging equipment. This project could not have been completed without the generous financial support of most of the families on the entire lake. It shows the community's commitment to a healthy and thriving North Lake for years to come. If you haven't completed your payment, please send to:

North Lake Management District
Don Reinbold, Treasurer
N73W32385 River Road
Hartland, WI 53029-8512

The dredge and supporting equipment are scheduled to be removed from the lake on Tuesday, May 16. The launch site will be used exclusively by the Michels team on the 16th, please plan accordingly.

A special THANK YOU to the Michels Corporation for the professional manner in which the project was completed.
